Profile of the corporation

The Pioneer of China organic fertilizer industry
Since 2005

HEBI RENYUAN BIOLOGICAL TECHNOLOGY DEVELOPMENT CO.,LTD. (REN YUAN BIO for short)

The corporation was founded in 2005, the business scope include production and R&D of all organic agriculture relating products, include composting microbes, organic and microbes fertilizer, organic fertilizer relating equipment and facility, Organic crop protection products, forestry machinery etc.

The technology orientated corporation take the social responsibility to promote the organic application technology in China and abroad, and provide tech support in all agriculture areas from field to market .

The corporation consisted of: one organic fertilizer equipment plant, one microbes plant, one organic fertilizer composting plant, and one agriculture microbiology R&D center.

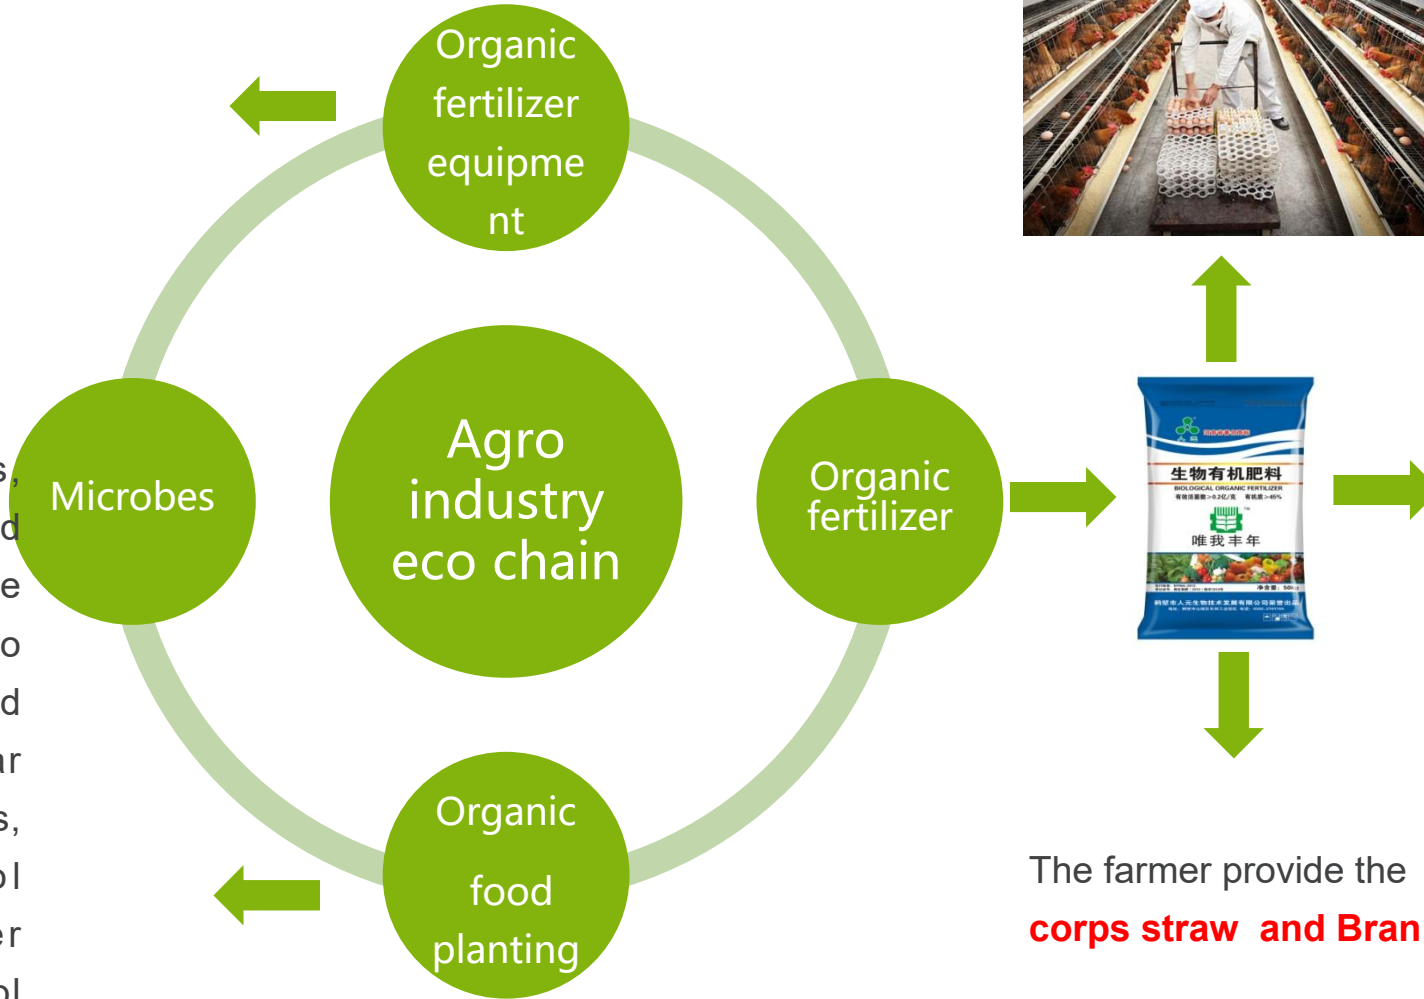

- Since 2005. The Pioneer of China organic fertilizer industry
- Annually, in China there are more than 5million tons of animal dung and other agriculture waste were treated by the equipment and microbes supplied by RenYuan Bio

Flag customers

Customer name	Profile	Treatment of the waste	Ren Yuan supply product	Capacity
	Yili group, The top China dairy cultivation and products integrator group .	Cattle dung	Microbes , organic fertilizer equipment	50000Ton / year
	The Top 1 meat cultivation and production integrator corporation in the world	Pig dung	Microbes	50000Ton / year
	China Top 5 swine cultivation integrator company	Pig dung & animal corpse	Microbes , organic fertilizer equipment	100000Ton / year
	New Hope---China the top feed manufacture with animal farm integrator group	Pig dung	Microbes , organic fertilizer equipment	30000 Ton / year
	Da Bei Dong Group--Among the top China agriculture integrator group	鸡, 猪粪便 Chicken , pig dung	Microbes , organic fertilizer equipment	50000 Ton / year

During the planting process, when chemical fertilizers and pesticides is prohibited, to use the bio-organic fertilizers to improve soil organic matter, and the frequency-vibration solar insecticidal lamps, insect traps, underground pest control microbial agents and other green prevention and control technologies is the only option.

The animal farm base provide **animal dung** for the corporation

Mushroom farm provide the **mushroom culture waste**

The farmer provide the **corps straw and Bran**

Plant 1 – The composting microbes plant

The fermentation workshop and the corps composting microbes workshops covers 1500m², the annual productivity of corps composting microbes 5000 ton, and 500 tons of fertilzier composting microbes.

Liquid microbes fermenter workshop

Solid microbes fermentation and cultivation workshop

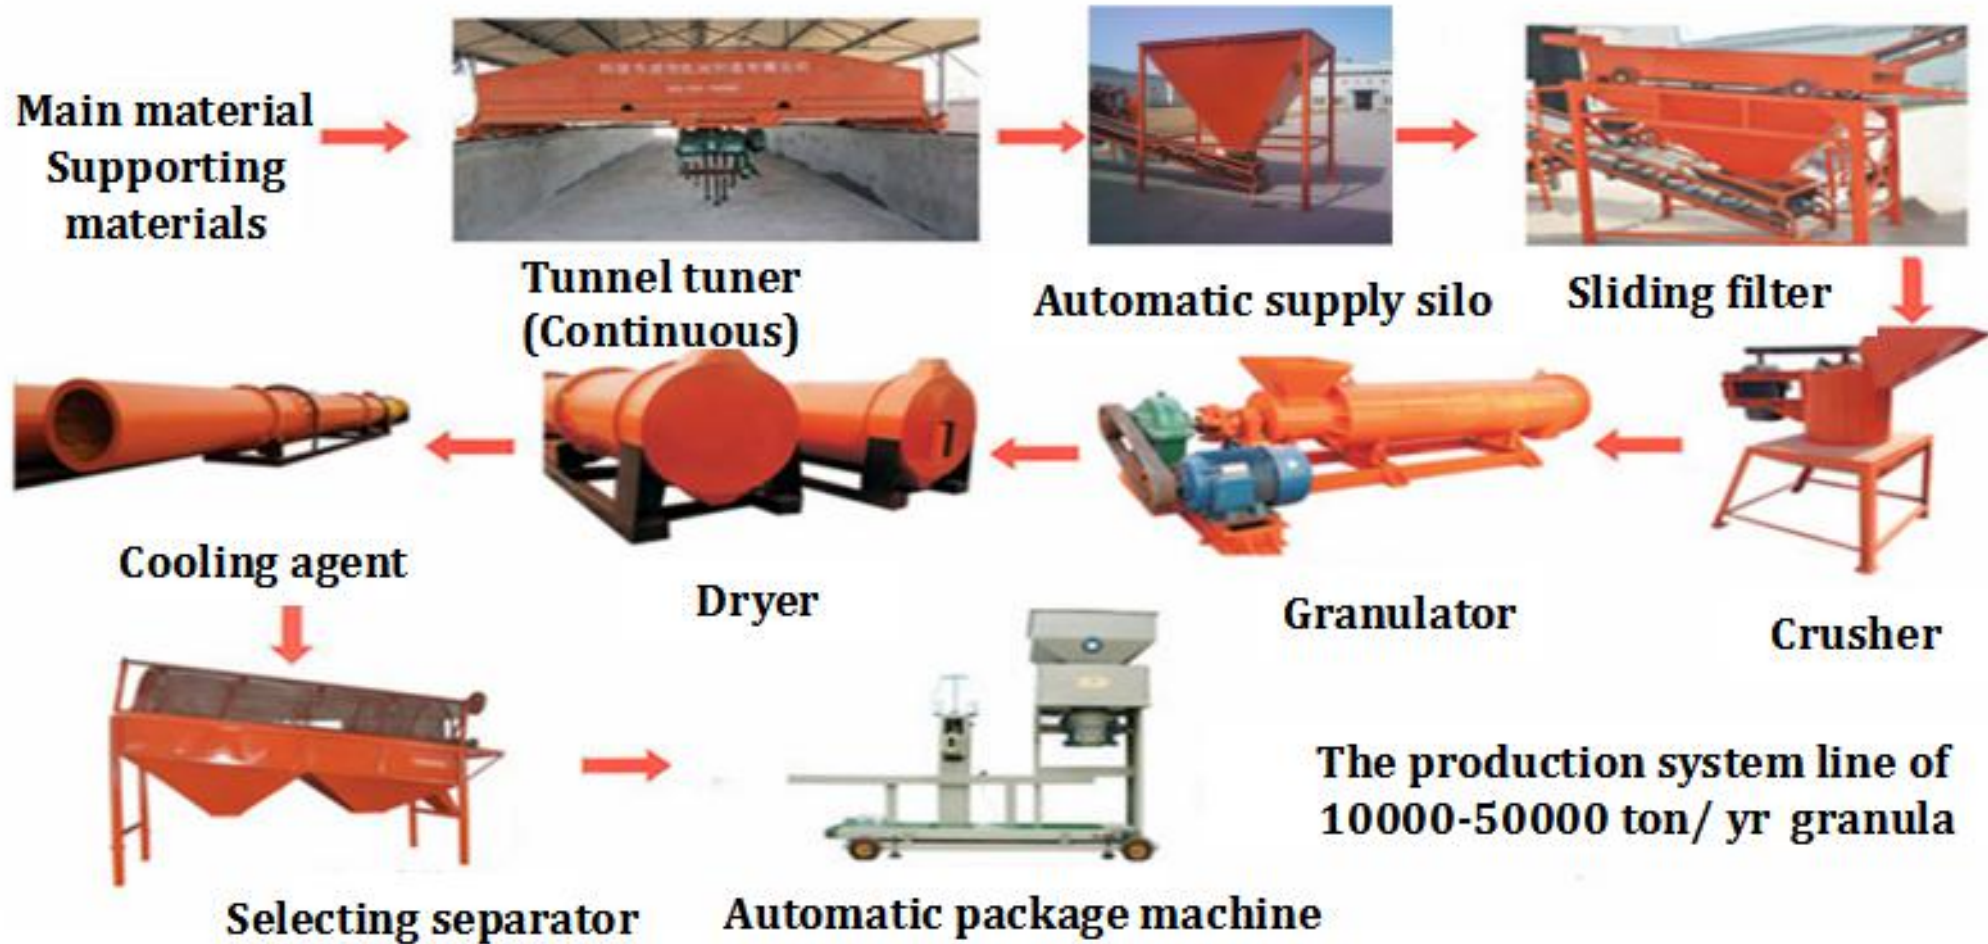

5000m² Standardized organic fertilizer production equipment workshop, the annual productivity is 300 sets of product line.

Main gate of equipment plant

Ground walking tanner machine

Occupied land of 50 Mu(Equals 666m² per Mu), the plant equips one powder form fertilizer and one granular fertilizer production line, the annual productivity is 30,000 ton organic fertilizer, and 20,000 micro organic fertilzier.

The commercial organic fertilizer

The R&D center covers 5000 m². The scientific research platform consisted of one R&D center and one analysis center, equipped with more than 50 sets of equipment, including stainless steel liquid fermentation system, rotary evaporator, constant temperature incubator, double-layer air bath constant temperature shaker, etc., the total value of the facility is more than 5 million yuan, with the complete scientific research infrastructure and its strong hardware condition, it guarantees the various scientific research and innovation work can be carried on in the center.

ZDHY

Beijing ZhongDaHuaYuan Certification Center
(822 Fuchengmenwai Street, Western District, Beijing 100873, China)

Quality Management System Certification Certificate

No.02017Q31638R0M

Hebi City Ren Yuan Biotechnology Development Co., Ltd.
(Unified Code Of Social Credit:9141060279834004353)

System scope assessed
Audit address:No.118,West Zhongshan Road,Heshan District,Hebi City(Production);Floor 17,Block B,Lianhe Haoqing,Zhaoge Road,Qibin District(Office);West Section of Fuchunjiang Road,Qibin District,Hebei City,Henan Province,P.R. China
Registered address:No.118,West Zhongshan Road,Heshan District,Hebi City,Henan Province,P.R. China

Product / service scope:production of organic fertilizer production equipment,production of microbial inoculum and organic fertilizer(within the qualification scope);the sales of water saving equipment(irrigation equipment,irrigation equipment),agricultural machinery(remote spraying machine),plant protection machinery products(solar lamp,mothkilling board,armyworms boards,sticky tape,trapping)

Quality management system is in conformity with
GB/T 19001-2016/ISO 9001:2015 *Quality management systems-Requirements*
Issuing date: 2017.07.27; Expiration date:2020.07.26
Re-issuing date:2019.08.30

Note: The certification registration scope doesn't include those product / service scopes which fall to be covered by the relevant effective administration permission and qualification permission registered by the state.
The certified organization must accept the surveillance audit on a regular basis and the certificate is considered to be effective only after the audit is qualified.

LIUJIANGYL Director of ZDHY

Note: The certificate information could be available in the website of Certification and Accreditation Administration of the People's Republic of China (www.cnca.gov.cn) and Beijing ZhongDaHuaYuan Certification Center (www.zdhy.net).

ENVIRONMENTAL MANAGEMENT SYSTEM CERTIFICATE

The certificate information is available on the CNCA of the official website (www.cnca.gov.cn)

This is to certify that the environmental management system of
HeBi RenYuan Biotechnology Development Co., Ltd.

Unified Code of Social Credit:9141060279834004353
Reg. Ad: No.118, Zhongshan West Road, Heshan District 459000
The Main Office: Zhongshan West Road, Heshan District, Hebi City, Henan
Sales Address: Tower B, Lianhehaoqing, Zaoguo Road, Qibin District, Hebi City, Henan

Which is in conformity with
GB/T24001-2004 idt ISO14001:2004
This certificate covers the following scope of

(organic fertilizer production equipment, microbial agents, organic fertilizer production and sales (within the qualification scope), water saving organic agricultural processing equipment, irrigation equipment, irrigation equipment), agricultural and forestry machinery (remote sprayers), plant protection equipment (solar insecticidal lamps, jam insects board, glue sprayers, armyworm tape, trap) sales and its relative environmental management activity

This certificate will not remain valid unless and until the certified organization accepts at least once surveillance audit annually within the validity period of the certificate and the surveillance audit conforming mark is affixed to the designated place on the certificate. Please login into www.zrxbj.com for this certificate's validity status.

Issue Date: Mar-04-2015 Expiration Date: Mar-03-2018 End

Change Date: Mar-03-2016

Part

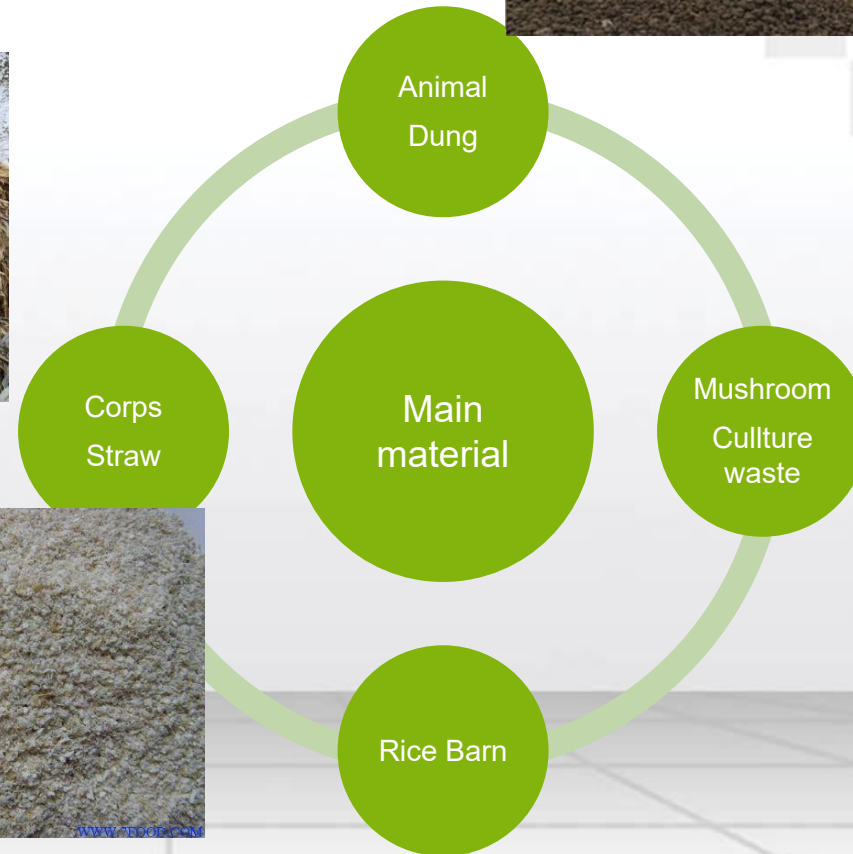

The industrialized agriculture by corporation

Industrialization of agriculture

The main raw materials of the company's organic fertilizers, bio-organic fertilizers production, include straw decomposing microbes, microbial inoculants include livestock manure, mushroom residue, rice bran, straw and other agricultural organic waste.

The planting base strictly follows the pollution-free green food production operation rules, prohibits the use of pesticides, chemical fertilizers, additives, hormones, etc., applies the company's organic fertilizers, bio-organic fertilizers, biocontrol agents and soil conditioning bacteria agents, using frequency vibration solar killing Insect lamp, insect trapping board and other green prevention and control technologies are used to produce, process and sell green and pollution-free grains and vegetables. With the improvement of people's living standards and the importance of dietary health, green pollution-free foods are more popular by the consumer. The price of green pollution-free grains and vegetables in the market is 2 to 3 times higher than that of ordinary grains and vegetables. At present, the annual output of the planting base is 120 tons of cereals and vegetables, which can increase the income of the company and farmers' cooperatives by about 1.35 million yuan every year.

Frequency vibration solar insecticidal lamp

pest trap board

蚜必净

Kill aphid

- 【作用】 杀虫真菌，在蚜虫身上定植后，菌丝萌发寄生蚜虫体内，杀死蚜虫。
- 【效果】 3-5天蚜虫100%死亡。
- 【应用对象】 农作物（蔬菜、水果、烟草、林业等）蚜虫
- 【使用方法】 固体真菌1袋兑20公斤水，取本品内包装，在水中浸泡20-30min，期间用手揉搓3-5次，加速孢子释放速度，直至浸出液澄清为止，于傍晚喷雾，湿度75%以上效果更佳。
- 【包装规格】 孢子≥8亿/克，30±1g/袋。
- 【注意事项】 禁止与杀菌剂混合使用；通风阴凉处保存。

Aphid exterminator

The fertilizer product analysis report (manufactured by Ren Yuan equipment & microbes) by State agriculture ministry

The background is a composite of various natural elements. At the top right, a branch with bright green leaves extends across the frame. The sky is a mix of light blue and pale yellow, with soft white clouds. A prominent sunburst effect radiates from the center, creating a warm, golden glow. In the foreground, there's a lush green field with yellow flowers on the left and white daisies on the right. A small butterfly is perched on one of the daisies. The overall mood is bright, cheerful, and serene.

Thank you!
