Composting strain&functional strain with Micro bio fertilizer

HEBI RENYUAN BIOLOGICAL TECHNOLOGY DEVELOPMENT CO.,LTD. (REN YUAN BIO for short)

The corporation was founded in 2005, the business scope include production and R&D of all organic agriculture relating products, include composting microbes, organic and microbes fertilizer, organic fertilizer relating equipment and facility, Organic corp protection products,forestry machinery etc. The technology orientated corporation take the social responsibility to promote the organic application technology in China and abroad, and provide tech support in all agriculture areas from field to market .

 <https://www.youtube.com/channel/UCP5aXsTnHRNPwwIb-Vzyakg>

The corporation consisted of: one organic fertilizer equipment factory, one microbes factory, one organic fertilizer composting plant, and one agriculture microbiology R&D center. And one corps protection facility factory.

Annually, in China there are more than 5million tons of animal dung and other agriculture waste were treated by the equipment and microbes supplied by RenYuan Bio

- **Our company was founded in 2005, and was considered pioneer corporation in organic fertilizer.**
- **Have been granted a State-level high technology corporation with many patents in organic fertilizer treatment technologies, machines, and composting microbes.**
- **As our partner, customer will have access to our sustainable technology services, laboratory analysis, organic substrate, and free organic fertilizer formula design.**
- **Entitled as Vice Chairmen enterprise of China fertilizer industry association**
- **Henan provincial agriculture industrialization model corporation**
- **The product brands was granted as as Henan provincial famous brand**

Organic Fertilizer & Bio fertilizer

(other special types of bio fertilizer can be customized according to customer's requirement)

Product	Description	Features	Dosage	Package	Export notes
Renyuan Organic fertilizer	High temperature fermentation kills viruses, germs, insect eggs and other harmful substances in the feces. It contains the basic elements of nitrogen, phosphorus, and potassium, and contains a large amount of organic matter, amino acids and trace elements necessary for crops. The organic matter is more than 45%, nitrogen and phosphorus The total potassium nutrient content is $\geq 6\%$, which is an efficient and high-quality ecological fertilizer.	<ol style="list-style-type: none"> 1. Complete nutrients and long-lasting fertilizer effect. 2. Good soil improvement effect. 3. Strong activity, increase yield and improve quality. 	<p>Use as basal fertilizer</p> <p>One hectare apply</p> <p>30-45ton</p>	<p>50kg/package Bulk bag is available</p> 	<p>Minimum order : 1 ton with one pallet</p> <p>When exporting claim it as humic acid fertilizer</p>
Renyuan Bio Organic fertilizer	Product contains active bacteria for fixing nitrogen, dissolving phosphorus and potassium, and is rich in organic matter. It also contains various trace elements and other substances that promote plant growth.	<ol style="list-style-type: none"> 1. Scientific designed formula to reduce the occurrence of many soil-borne diseases. 2. Activate the soil and increase the content of soil trace elements. 3. Green, environmental protection, fertility and high efficiency, strong roots and strong seedlings to prevent disease. 4. Improve the quality of agricultural products and promote early maturity of crops. 	<p>One hectare apply</p> <p>4.5-7.5ton</p>	<p>50kg/package Bulk bag is available</p> 	<p>Minimum order : 1 ton with one pallet</p> <p>When exporting claim it as humic acid fertilizer</p>

Renyuan Garden organic fertilizer	Contains active bacteria for nitrogen fixation, phosphorus and potassium solubilization, rich organic matter, and a variety of trace elements to promote plant growth.	<ol style="list-style-type: none"> 1. Complete nutrients and long-lasting fertilizer effect. 2. Good soil improvement effect. 3. Strong activity, improve flower quality. 	Apply as basal fertilizer,to mix with Soil as 1:5 ratio	1kg/package Bulk bag is available 	Minimum order : 1 ton with one pallet When exporting claim it as humic acid fertilizer
Renyuan Soy bean Bio organic Fertilizer	Contains soybean rhizobia, phosphorous and potassium active bacteria and rich organic matter, a variety of trace elements, etc., can reduce the amount of urea per mu by 20 kilograms and can effectively kill the adults and larvae of mole crickets, golden needles, nematodes and other pests. To achieve the goal of increasing production by 15%-30%.	<ol style="list-style-type: none"> 1. Science Formulation. 2. Activate the soil. 3. Early maturity to increase yield. 	One hectare apply 4.5-7.5ton	10kg/package Bulk bag is available 	Minimum order : 1 ton with one pallet When exporting claim it as humic acid fertilizer
Renyuan Peanut Bio organic Fertilizer	Contains peanut rhizobia,phosphorous and potassium-resolving active bacteria and rich organic matter, a variety of trace elements, etc., which can reduce the amount of urea by 300 kg per hectare and can effectively kill the adults and larvae of mole crickets, golden needles, nematodes and other pests. To achieve the goal of increasing yield by 15%-30%.	<ol style="list-style-type: none"> 1. Science formulation design. 2. Activate the soil. 3. Early maturity to increase income. 4. Strengthen the roots and seedlings, prevent disease. 5. Improve quality and fertilizer utilization. 	One hectare apply 4.5-7.5ton	2kg/package Bulk bag is available 	Minimum order : 1 ton with one pallet When exporting claim it as humic acid fertilizer

<p>Renyuan Tomato special bio fertilizer</p>	<p>Contains tomato rhizobia, phosphorus and potassium-resolving active bacteria and rich organic matter, a variety of trace elements, etc., which can reduce the amount of urea by 300 kg per hectare, can effectively kill the adults and larvae of mole crickets, golden needle insects, nematodes and other pests. To achieve the purpose of increasing yield by 15%-30%.</p>	<ol style="list-style-type: none"> 1. Improve fertilizer utilization and fertilizer efficiency. 2. Both speed and slowness, biological control. 3. Improve and Perfect the quality of crops and increase the proportion of high-quality tomato. 4. Improve and mature the soil. 	<p>One hectare apply 4.5-7.5ton</p>	<p>2kg/package Bulk bag is available</p> 	<p>Minimum order : 1 ton with one pallet</p> <p>When exporting claim it as humic acid fertilizer</p>
<p>Renyuan Asparagus special bio fertilizer</p>	<p>Containing asparagus rhizobia, phosphorus- and potassium-resolving active bacteria and rich organic matter, a variety of trace elements, etc., can reduce the amount of urea per hectare by 300 kg and can effectively kill the adults and larvae of mole crickets, gold needles, nematodes and other pests. To achieve the goal of increasing yield by 15%-30%.</p>	<ol style="list-style-type: none"> 1. Science formulation design. 2. Activate the soil. 	<p>One hectare apply 4.5-7.5ton</p>	<p>2kg/package Bulk bag is available</p> 	<p>Minimum order : 1 ton with one pallet</p> <p>When exporting claim it as humic acid fertilizer</p>
<p>Renyuan Tobacco Bio organic Fertilizer</p>	<p>Using a variety of organic substrate and livestock and poultry manure fermentation as the main raw material, comprehensive nutrition, slow release, long-term effect It is brown, non-toxic, harmless, without residue, and does not pollute the soil and crops. A new type of fertilizer scientifically formulated by more than ten kinds of beneficial microorganisms.</p>	<ol style="list-style-type: none"> 1. Improve fertilizer utilization and fertilizer efficiency. 2. Both speed and slowness, biological control. 3. Improve and perfect the quality of crops and increase the proportion of high-quality tobacco. 4. Improve and mature the soil. 	<p>One hectare apply 4.5-7.5ton</p>	<p>2kg/package Bulk bag is available</p> 	<p>Minimum order : 1 ton with one pallet</p> <p>When exporting claim it as humic acid fertilizer</p>

<p>Renyuan Tea Bio organic Fertilizer</p>	<p>Contains tea nitrogen-fixing bacteria, phosphorus- and potassium-resolving active bacteria and rich organic matter, a variety of trace elements, etc., which can reduce the consumption of 20 kg of urea per mu and can effectively kill the adults and larvae of mole crickets, golden needle insects, nematodes and other pests. To achieve the goal of increasing production by 15%-30%.</p>	<ol style="list-style-type: none"> 1. Science formulation design. 2. Activate the soil. 	<p>One hectare apply 4.5-7.5ton</p>	<p>2kg/package Bulk bag is available</p> 	<p>Minimum order : 1 ton with one pallet</p> <p>When exporting claim it as humic acid fertilizer</p>
<p>Renyuan Fruit tree special fertilizer</p>	<p>The product designed according to the physiological characteristics and fertilizer requirements of apples, pears, peaches, jujubes, grapes, oranges, bananas and other fruit trees.</p>	<ol style="list-style-type: none"> 1. Achieve the balance between organic and inorganic. 2. Improve soil microbial system and physical structure. 3. Improve fruit quality <p>Reduce pests and diseases.</p>	<p>One hectare apply 4.5-7.5ton</p>	<p>2kg/package Bulk bag is available</p> 	<p>Minimum order : 1 ton with one pallet</p> <p>When exporting claim it as humic acid fertilizer</p>
<p>Renyuan Vegetable special bio fertilizer</p>	<p>According to the growth characteristics of vegetables (cauliflower, leafy vegetables, stem vegetables, fruit vegetables, root vegetables) and the characteristics of nutrient requirements, the special functions of fertilizer efficiency are displayed together.</p>	<ol style="list-style-type: none"> 1. Stimulate and promote the growth of vegetables, resist drought and flood, cold and heat. 2. Improve the disease resistance of vegetables. 3. Long-term use can improve yield and quality. 4. It can degrade and purify fertilizer residues. 	<p>One hectare apply 4.5-7.5ton</p>	<p>2kg/package Bulk bag is available</p> 	<p>Minimum order : 1 ton with one pallet</p> <p>When exporting claim it as humic acid fertilizer</p>

Renyuan Polyamine soybean meal bacterial fertilizer	After solid fermentation of beneficial microorganisms, free amino acids are fully released, the fermented product is leached with water, and pro biotics are added to prepare a fully soluble amino acid bacterium fertilizer.	<ol style="list-style-type: none">1. Effectively improve seed germination index.2. Increase the number of root fibrous roots and improve the attachment ability of crops.3. Accelerate the absorption of nutrients by crops.4. Thick seedlings and strong seedlings, prevent and control crop root rot, black shank and blight.5. Improve fertilizer utilization and increase crop yield.	Tobacco: diluted with 1:100 water, 600kg / ha Tea: diluted with 1:100 water, 450kg / ha Fruit trees: diluted with 1:50 water, 750KG / ha Melons and fruits: diluted with 1:80 water, 600kg / ha Vegetables: diluted with 1:100 water, 300kg / ha Flowers: diluted with 1:100 water, 225-300kg / ha	20kg/Drum 	Minimum order : 1 ton with one pallet When exporting claim it as amino acid fertilizer
